PROJECTS

VishnuCnt (Best Project Award from CODINZA)
Vishnu Connect is a dynamic social media platform meticulously crafted to foster seamless communication between students and faculty members. Our mission is to create a vibrant community where achievements, works, and management updates can be shared effortlessly. Developed using MERN Stack

Sports Shedular

Developed using the PERN stack, this project allows users to register to different games online. The manager updates the sports going on (with CURD operations) and can track all the activities of the page.

Content Management System

Developed MERN stack project Connect, a versatile blog management tool featuring social login and implemented a user-friendly interface allowing users to post (with CURD operations) and read blogs.

ABMusic

A Music application designed with a user-friendly Interface (responsive). Developed using HTML, CSS, JavaScript
